Mrs. L. W. Seylar was shopping in Chambersburg last Thursday.

Good safe place to hitch your horses, when you come to the Hill Store.

Mr. J. S. Hill and wife, of Belfast township, spent a few hours in McConnellsburg last Monday.

Needmore ladies, and even the Doctors, 'tis said, helped with their little wheelbarrows on Good Roads Day.

Almost everyday some new customer is taking the advantage of the many bargains we are giving at The Hill Store.

Miss Carrie Greathead and Miss Emma Sloan who have been teaching in Johnstown, are home for the summer months.

Miss Mildred Mock is visiting Miss Pauline Unger and Miss Gladys Seylar at Foltz, and will attend Commencement at Mercersburg Academy.

Mrs. Mary Schooley of O'Shanter, Pa., and Mrs. Jere Fritz, of Foltz, Pa., spent last Wednesday night in the home of their niece, Mrs. E. A. Alexander, East Lincoln Way.

C. Wilson Peck, who had been confined to his home on account of kidney trouble since last October, was taken to the Chambersburg hospital for treatment on Tuesday.

Mrs. Alex Patterson and daughter Mary Carson, of Cumberland county, spent the time from Saturday until Wednesday in the home of Mrs. Patterson's mother Mrs. E. J. Johnston in the Cove.

The Walnut Grove campmeeting will open on Friday evening, August 13th at 7:30 p. m. and close Sunday night, August 22d. Rev. J. A. Tinker of Houtzdale will open evangelistic services on Monday, August 9th.

E. R. Schellenberger, of Hamburg, Pa., spent several days here this week looking after the preliminary work of connecting the upper springs with the town reservoir by pipes as demanded by the State Board of Health. The work should be hastened, because, if hundreds of men go to work on the mountain to build a railroad, they and the necessary horses would spread untold pollution over the watershed.

Mr. and Mrs. W. E. Barton, their daughter Vera, and Mr. George Mort—all of Six Mile Run and Mr. H. E. Walker, of Pittsburgh, motored in the Mort car to Gettysburg, Tuesday of this week. We had the pleasure of a call from Mr. Barton when they passed through McConnellsburg. Everything was running smoothly with the exception that they stalled their machine on a piece of newly made road near New Grenada.

Sportsmen's Association.

The sportsmen of Bedford county met at the County Seat last week to perfect an organization for the propagation of game and fish. Just to show what organized associations can accomplish, the Johnstown delegation that attended this meeting reported that they had received all the foundation stock of game and fish asked for from the state. Since January 1, 1915, the Johnstown association has received from the State and Federal authorities three car loads of deer, two car loads of six-inch trout, 250,000 blue gills, 200 pairs of quail, and 8 pairs of ring-necked pheasants.

Blight Of Fruit Trees.

No subject at just this time is attracting more attention by fruit growers than that of the blight of the apple, pear and quince trees. Scores of specimens from various parts of Pennsylvania have recently been sent to State Zoologist H. A. Surface, Harrisburg, asking him to name the trouble and state what to do for it. He replies that he finds the disease to be the one commonly known as Pear Blight, also called Black Blight, Twig Blight, Trunk Blight, Bark Blight, etc. It is a bacterial disease that works within the tissue of the plant, and, therefore, can not be reached by spraying liquids. It may start at the blossoms, or at any place where the bark is broken, or where injury has occurred.

One reason why the blight is so unusually bad this spring is that there was a general and severe hailstorm in the early part of May, which resulted in breaking the bark all along the twigs, splitting it longitudinally, or making little circular cuts from one-quarter to one-half inch in length. A close examination will reveal hundreds of such cuts made in the bark by hail stones in almost every fruit tree over the entire territory traversed by the storm. The blight germs enter these openings in the bark and work upward and downward in the twig, causing speedy death of tissue, making the leaves and fruit turn black and wither, and the twigs to break. This particular disease is confined to the pome fruits, or apple, pear and quince, and is the most serious disease of these fruits. When it enters an opening near the ground such as is often made by borers, mice, or injury by the cultivator, it takes the form known as Collar Blight or Collar Rot, and is very destructive.

There is nothing that can be done to cure or remedy all the Blight after it has once started. The only process recommended by plant pathologists is to cut it out, and thus stop its ravages. The cut should be made at least a foot below the blighted area, in order to be sure to cut below all diseased tissue. Paint the surface of the wound with strong lime-sulfur solution or formalin solution. One quart of a pint of formalin solution in five gallons of water makes a good sterilizing solution to be used at any place where disease germs of plants, animals or mankind are to be killed.

—DEALER IN—

High Grade Plain Pianos, Player Pianos, Organs, Victrolas, Records, and Professional Tuner, McConnellsburg,

Nothing adds more to the refinements of home than good music. To have good music you must have a good instrument. There are good bad and indifferent instruments, and to the unskilled eye they look much alike. The unprincipled dealer is likely to make you pay a first-class price for a fourth-class instrument. I have lived in this county since my birth, I am a taxpayer and in a position to make good any business transactions. Buy your piano, organ, or victrola from me and if it is not all right you can come back at me.

There are families in every part of this county that have purchased instruments from me. Ask them about me.

Perhaps you want to trade your organ for a Piano, or Player Piano; or your Plain Piano, for a Player. See me. Let's talk it over.

THE INDUCEMENT WE OFFER

We do not give something for nothing. No merchant can do that and continue in business.

We do not sell goods below cost. You would not do that yourself if you were a merchant.

We do not advertise to do either of these things. For we advertise to do only that which we faithfully accomplish.

But we do advertise to give you the best and biggest dollar's worth of goods for a dollar of any store in this community. And we give what we advertise.

We do advertise to give you the best quality of goods of any store in this community. And we give what we advertise.

We do advertise to give you the best service of any store in this community, and we give what we advertise.

We do advertise that we will treat you exactly as we like to be treated when we go elsewhere to buy goods we do not handle.

And we do exactly as we advertise.

That is all WE can promise you. But we GIVE what we PROMISE.

The bright days of springtime bring with them new life and energy, and we take this opportunity of calling your attention to many reasonable bargains.

We have yet a nice line of horse collars that was made up for us last winter when the collar business was dull; and for the cash, we bought them at a price that will save you money. There are but two classes of merchants—those who Advertise and those who do not. The man who advertises has the Best Of The Deal. He keeps himself before the public—and he keeps His Wares before the public—and he keeps their quality and price uppermost in the Public Mind. People Talk about a man who advertises, because they know he has something Worth advertising or he wouldn't advertise.
